

Sponsorship and Exhibitor Opportunities

Coastal GeoTools is the nation's premier conference dedicated to technology and the coastal environment. Held since 1999, the biennial event is a must-attend learning experience for planners, engineers, natural resource managers, geospatial analysts, and scientists from all sectors. In fact, many participants come back year after year—the conference is just that good! Participants attend Coastal GeoTools to find innovative, proven approaches to address their coastal management issues, learn about the latest technologies, and build their professional networks. We invite you to become a part of this tradition by becoming a sponsor or exhibitor, or both, at Coastal GeoTools.

We are offering an opportunity for sponsorship at various levels where you will have opportunities to engage with clients, colleagues, government officials, and industry leaders. We hope that your organization can support the conference through attendance and participation as a sponsor or exhibitor. Questions should be directed to Sarah Magdanz at sarah@floods.org or (608) 828-6329.
